

## SUPPOSE YOU WORKED HARD

for ten years, acquire a nice home, a good business, perhaps—and then a fire sweeps away everything—wouldn't you bemoan the insurance you should have had?

But such cases do not occur as often as they used to—people are becoming more cautious—are keeping their property insured. If your property is burned you get paid for it. You don't lose it. The insurance company stands between you and harm—if it is a good company.

More than a dozen of the soundest companies are represented by

**The J. F. Hurt Insurance Agency.**

**H**AVE you ever noticed closely a finished picture from Black's Studio? There is a softness and pleasing effect that ordinary work does not have. Pick up a print of a lady or child in white—notice the softness in white drapery—the detail in trimming. Also notice the features. Nothing harsh nor chalky about it.

There is a reason. We give careful attention to details.

## THE STORE THAT SETS THE PACE.

# H.W. POBST

To the average man there is nothing so deceiving as the appearance of a watch.

He may open the case and admire the elaborately ornamented top plate and big jewels of what may be the most miserable timekeeper it would be possible to find.

On the other hand he may not be much taken with the plainer and less costly appearance of what is really a good watch.

A man buying a watch has to depend almost altogether on the assertions of the seller.

This is true, is it not? Then is it not to your interest when you decide to purchase a watch to go to a place where you can have confidence in the one with whom you trade? And if there should be any trouble with the watch, POBST is more convenient than an extra trip to a distant city.

### I will Give to Every Purchaser a Guarantee

that every watch and piece of jewelry I sell to be as good as represented. I'll do even better than that. I will duplicate any watch or piece of jewelry bought in a city at 10 to 20 per cent. less than the city store's price.

## VOLCANO'S LAVA POURS IN OCEAN

Eruption on Island of Savaii, Samoan Group, Continues on Large Scale.

### SEVERAL VILLAGES ARE DESTROYED

Women and Children Being Carried Away on Steamer—Sea Water Boiling and Surf Breaks Over Fiery Stream.

Honolulu, March 13.—The officers of the steamer Sierra which has arrived here from Sydney, N. S. W., via Samoa, reports that the eruption of the volcano on the island of Savaii, of the Samoan group, continues on a large scale. Three villages have been completely destroyed, including Malealo, where was located the finest cocoa plantation on the island. The residences of A. King and G. Barley have been reduced to ruins and are a total loss. The lava from the volcano is flowing into the ocean in a stream three quarters of a mile wide and twenty feet deep at the rate of twenty feet an hour. At night a solid wall of molten lava five miles long can be seen reaching far out into the sea. For some distance the sea water is boiling and the surf breaking over the fiery stream. The government recently chartered the steamer Moari to remove the women and children from the zone of danger.

### LITTLE HINTS.

A tulip ruche and a tight little wreath of roses trim the mushroom hat.

Amethyst is a color that is seen more frequently as the season advances.

There is a new net inlet with horizontal stripes of lace, which makes lovely evening gowns.

The luxurious evening coat is lined throughout with ruffles of narrow Valenciennes.

Blouses of satiny leather in white or colors are the modish shirt waists for motoring or driving.

When one wishes to appear particularly well, the becoming picture hat remains the favorite.

Many women have their gowns made up with two skirts, one short and severe, the other long and trimmed.

Belts of gold braid are fetching and will brighten up the dark shirt-waist suit to be so much worn this winter.

Such a pretty opera bag for the woman in black is of black Irish crochet over silk. The mounting is gun metal.

The streets will be a gay riot of color this winter if all the rainbow-hued suits one sees in the shops are to find purchasers.

In one shop is shown a gown with little creatures like ermine sprawled all over it. It would make a lovely woman look like an awful barbarian.

Velvet is quite the thing for a street gown this winter. The tailored gown of black velvet, made severely and worn with handsome furs, is first choice.

Children's coats are charmingly tricked out with a bit of fur at collar and wrists. Angora, caracul, ermine and Persian lamb are all used for this. White goatskin makes delightful entire coats for the youngsters. It looks like caracul, but is much less expensive and cleans easily.—Chicago Daily News.

Clean one quart of oysters, chop and then parboil, drain and add to liquor enough water to make one quart of liquor. Brown three tablespoonsful of butter with three tablespoonsful of flour, add oyster liquor and cook slowly for one-half hour. Season with salt and paprika and celery salt. Just before serving add one cupful of cream; two tablespoonsful of chopped parsley may be added if desired.
